EN NON-STICK SPRAY

Fine mist spray that provides an easy and effective way to grease the cooking grate – with 100 % natural and odourless ingredients. Creates a non-stick and corrosion-resistant surface, making it perfect for use both during and after grilling. Storage: At room temperature. 1. Shake well before use. 2. Spray on the hot grate just before adding food. 3. Grill the food. 4. Brush the grate using a grill brush after grilling while the grate is still hot, and spray on for protection. **Ingredients: Water 73.1%, Soya Lecithin E322 18%, Sunflower 8%, Preservation: Lactic acid E270 0.9%.**
